

**Lipstick and Lead  
Schedule  
January to June 2025**

**January: Sighted Fire and Instinctive Point Shooting**

Whether you are a new shooter or a veteran, you can benefit from a review of basic handgun instruction. This month we will review the components of handgun marksmanship, including grip, stance, sight alignment, sight picture, trigger management. We will practice both sighted fire and instinctive point shooting. We will then practice these skills on the range in preparation for Dueling Trees in February.

**February: Dueling Trees**

This month, you will be competing in a round robin tournament using paper Dueling Trees. This game involves both handgun marksmanship and strategy.

**March: Home Defense Plan**

This month will be dedicated to learning about home defense. In the classroom, we will be learning about how to develop a family home defense plan and on the range we will be shooting various home defense firearms (handgun/shotgun/rifle).

**April: Carry Options/Holsters/Holster Draw and Spring Cleaning**

We will be learning the different carry options and holster types. We will also learn the technique for drawing a gun from a strong side hip holster and returning a gun to the holster. Afterwards we will be cleaning guns. Bring in any guns that you need to clean.

**May: Rifles (Indoors)**

This month we are going to do something completely different in that, we will be shooting rifles. You can bring your own rifle or use one of ours. We will be learning about trajectory, establishing a zero, minute of angle, and on our 25 yard range you will be engaging targets scaled to 300 meters.

**June: Rifles (Outdoors)**

This month, weather permitting we will be shooting rifles on an outdoor range engaging targets at distances up to 200 yards.
